

OSPO & GGI: Open Source in action

Valentina Del Prete

General Director Seacom

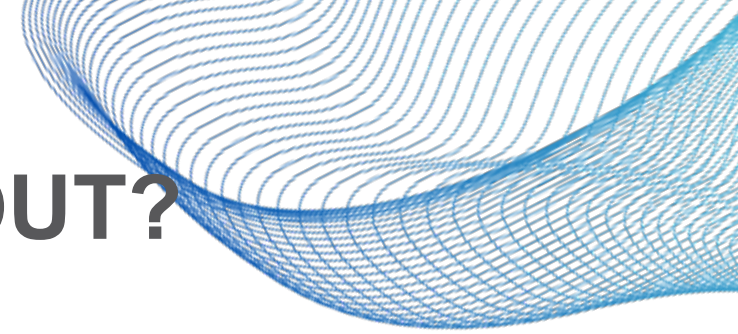

RETE ITALIANA
OPEN SOURCE

WHAT WE ARE TALKING ABOUT?

**To help each kind of organization to growth thanks to
Open Source...**

97% of software is based on Open Source code

The enormous spread of OS software is not enough.

The role of our community is to strength the concept of "open" as the basis for economic growth of the individual companies and as a post-capitalist Model.

The **GOOD GOVERNANCE INITIATIVE** proposes a methodological model to develop a professional open source management mode within organisations.

New version translated in Italian by RIOS

Abraham Maslow's Hierarchy of Behavioral Motivation

Strategy

Embracing the full potential of OSS. Proactively using OSS for innovation and competitiveness.

Engagement

Engaging with the OSS ecosystem. Contributing back. Developing visibility, event participation.

Culture

Implementing best practices. Developing OSS culture. Sharing experience.

Trust

Securely and responsibly using OSS. Compliance and dependency management policies.

Usage

Technically using OSS. Technical ability and experience with OSS. Some OSS awareness.

OW2 Goals to OSS Good Governance

The GGI model

Good Governance Initiative

4 step del metodo GGI

1

GOALS

Definition of objectives in terms of utilisation; trust; culture; involvement and strategy.

2

CANONICAL ACTIVITIES CA

An activity within an objective that addresses a single developmental problem or topic

3

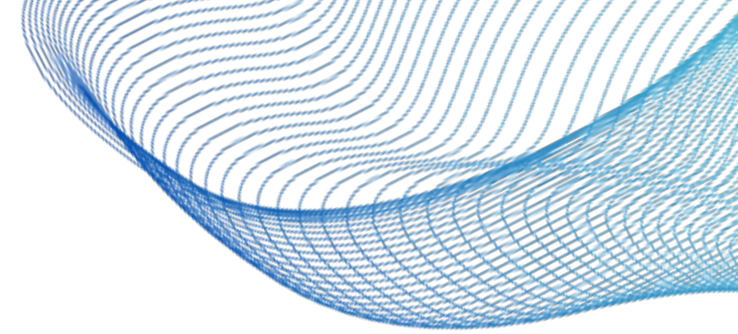

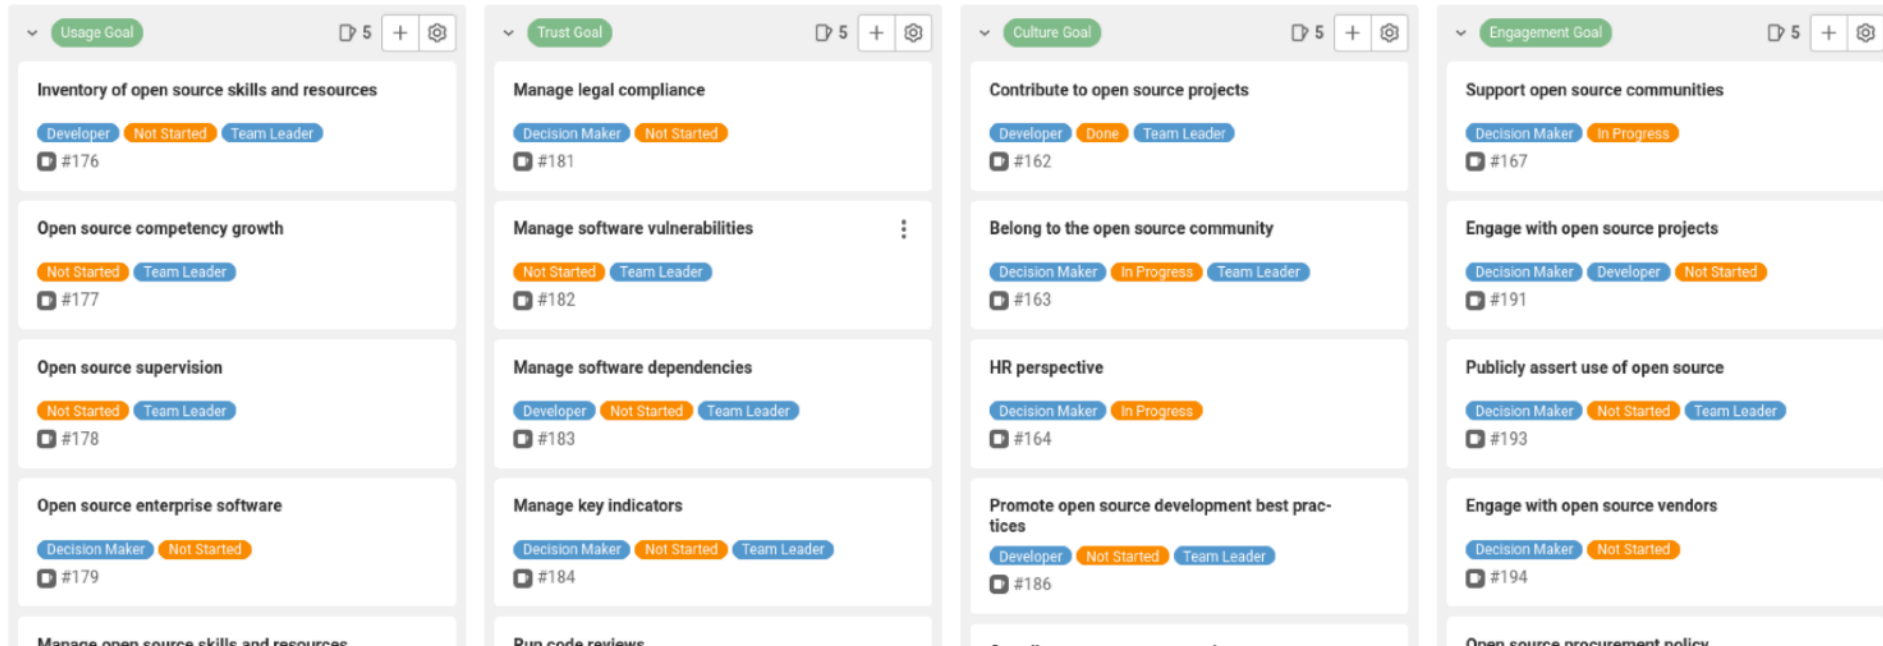

CUSTOMISED ACTIVITY SCORECARD

The CAS - implementation of CA to context. KPIs and progress indicators for customised activities.

4

ITERATION

Periodical review process

Goal Category	Task Title	Assignee	Status
Usage Goal	Inventory of open source skills and resources	Developer, Team Leader	Not Started
	Open source competency growth	Team Leader	Not Started
	Open source supervision	Team Leader	Not Started
	Open source enterprise software	Decision Maker, Team Leader	Not Started
Trust Goal	Manage legal compliance	Decision Maker, Team Leader	Not Started
	Manage software vulnerabilities	Team Leader	Not Started
	Manage software dependencies	Developer, Team Leader	Not Started
	Manage key indicators	Decision Maker, Team Leader	Not Started
Culture Goal	Contribute to open source projects	Developer, Team Leader	Done
	Belong to the open source community	Decision Maker, Team Leader	In Progress
	HR perspective	Decision Maker, Team Leader	In Progress
	Promote open source development best practices	Developer, Team Leader	Not Started
Engagement Goal	Support open source communities	Decision Maker, Team Leader	In Progress
	Engage with open source projects	Decision Maker, Developer, Team Leader	Not Started
	Publicly assert use of open source	Decision Maker, Team Leader	Not Started
	Engage with open source vendors	Decision Maker, Team Leader	Not Started

And you?
**What is the first challenge you would
submit to your OSPO?**

Thanks for your attention
